Print Array Elements Using Recursion 📌

Basic

Accuracy: 64.87%

Submissions: 8K+

Points: 1

Unlock your coding potential - join our Hiring Coding Contest and land your dream job!

You are given an array arr of size n. You need to print the array elements from start to end using given recursive function.

Example 1:

Input:

n = 5
arr[] = {1,2,3,4,5}

Output: 1 2 3 4 5

Example 2:

Input:

n = 4
arr[] = {5,4,2,1}

Python3
